SUMMARY

Backend developer specialized in Python (**Django**, **FastAPI**), with 3+ years of web development experience, including 2 years in Python. I build reliable APIs and web platforms: data modeling, business logic, **Mobile Money payment integration**, background jobs, deployment and production maintenance. Available for freelance missions or contracts, fully remote.

SKILLS

Python and backend	Python, Django, FastAPI, Celery, REST APIs, WebSocket, scheduled jobs
Data	PostgreSQL, Redis, MySQL
Payments and integrations	Mobile Money (Kkiapay, FeexPay), webhooks and payment reconciliation, WhatsApp Business API, LiveKit, AI APIs (Claude, Gemini)
DevOps	Docker, Linux, Nginx, Traefik, GitHub Actions, Cloudflare, backups and monitoring
Frontend	Next.js, React, TypeScript, Vue.js
Other languages	PHP (Laravel), JavaScript (AdonisJS)

PROFESSIONAL EXPERIENCE

Python Backend Developer Freelance Jun 2025 - Present

Self-employed | Missions for companies and founders · Remote

Python backend missions, one-off or recurring. **Available for new missions.**

EducaPro · part-time CTO, K-12 tutoring platform 2026

- Architecture and **Django backend** of the client's tutoring platform.
- **10+ business modules** (matching, sessions, prepaid wallet, cohorts), background jobs on **Celery** and **Redis**.
- **Mobile Money payments**, virtual classes on a **self-hosted LiveKit** server, CI/CD with **automatic rollback**.

Industrial client · production management software for a factory 2025 - 2026

- **Multi-entity Django application**: sales management, production tracking, **roles and permissions**, dashboards and exports. Delivered in milestones, maintained long term.

Mivo · location-based marketplace for home services 2025

- **Django backend** matching customers with nearby providers, **delivered in twenty-six days** with a certificate of satisfactory completion.

Africa-Ecodev Group · Côte d'Ivoire 2025 - 2026

- Platform for the group and its three subsidiaries, single bilingual back office (Nuxt 3, AdonisJS).
Tech: Python · Django · PostgreSQL · Redis · Celery · Docker · Nginx · Next.js

Co-founder and Technical Lead Jul 2026 - Sep 2026

1Peu 1Peu | Pay-as-you-go purchases via Mobile Money · Benin

- Designed and built the **FastAPI backend** and the whole platform, **shipped to production in under three months**.
- MTN, Moov and Celtiis payments through Kkiapay: **server-side verification of every payment**, automatic reconciliation every five minutes and **an archived proof for every credit**.

- Full back office: catalog, orders, suppliers, accounting and customer support, with WhatsApp sign-in.
 - Secure infrastructure: GitHub Actions CI/CD, Cloudflare with **mTLS origin authentication**, encrypted backups.
- Tech:** Python · FastAPI · PostgreSQL · Docker · Nginx · Next.js

Full-Stack Developer Permanent

Nov 2024 - Aug 2025

SCAR-SOFT | Software publisher · Benin

- Built and maintained the **Django backend services** of a multi-tenant e-invoicing and document management platform.
- Integrated the **Peppol** standard: exchange of invoices, quotes, credit notes and contracts, validation cycles and rejection handling.
- **Dynamic PDF generation** (WeasyPrint) and **scheduled jobs** for email reminders.
- **Electronic signature** module, per-tenant Nextcloud document storage, containerized services and hardened Linux servers.

Tech: Python · Django · PostgreSQL · Docker · Nginx · Linux
